Skills: CSS3, HTML5, Graphic Design, SEO, Marketing + More

-- Past Work --

PageLines San Diego, California

PageLines Moderator & Pro

I've been working with WordPress since 2006. I worked with the most popular WordPress theme company in the world; [PageLines](#), for about a year. In that time I worked with thousands of customers answering questions, troubleshooting problems, writing code and customizing themes. PageLines is a great company where I was able to contribute many of my ideas. I've since branched off to do my own thing: [TidyThemes](#).

Lionbridge | Microsoft Bellevue, Washington

Test Operator

My position as a Test Operator was to test, research and judge Microsoft's MSN Search Engine in order to improve its overall quality.

Regency Mortgage Salt Lake City, Utah

Lead in Marketing

My position as Lead in Marketing was to collect hundreds of leads daily for the loan officers through a government tool via the internet. I also trained several other employees and designed all of their marketing materials.

Thanks for looking, Bryan
